MAINTENANCE REPAIRWORKER II

(Non-Journey person)

DEFINITION

This is supervisory and semiskilled work in one or more building trades. In addition to the typical duties of a Maintenance Repairman I, work involves the supervision of a small group of subordinates employed in the maintenance and repair of buildings, machinery and equipment; assigning and monitoring work and evaluating performance. Employees of this class may exercise technical independence in determining work methods and procedures. Work includes supervising workers in repairing buildings, machinery and equipment in carpentry, electrical, mechanical, plumbing and other trades. Work assignments are received verbally or by written instructions which may be accompanied by sketches or diagrams. Performance is reviewed by a designated superior through discussions, observations, inspections, reports and overall results achieved for conformance with established standards.

N.B. Other related responsibilities may be assigned as necessary.

QUALIFICATIONS

Graduation from high school, or GED, and considerable experience at the semiskilled level in the carpentry, electrical, mechanical, plumbing and other trades plus supervisory experience; or any equivalent combination of training and experience. Strong interpersonal and leadership skills, good verbal and written communication skills and a comprehensive knowledge of provincial and district rules, procedures and regulations specific to the job function are required. Ability to operate a computer and appropriate software programs is required.

Wage or Salary Rate

\$24.58 per hour effective April 1, 2023
